## LIFESOURCE ESSENTIALS FOR THE HOME

### GEL CANDLES (HEAVENLY SCENTED)

LifeSource Essentials now offers generously scented Gel Container candles that will burn clean and even. LifeSource Essentials is committed to providing you with high quality, handcrafted products. We use a generous amount of scent with true burning fragrances and only top quality gels to ensure a pleasing and attractive burning candle. (The way our candles smell in the container is how your home will smell when you burn our candles). Since the candles are made by hand with refined ingredients, they burn cleaner and leave no black stains on the walls or the candle. We use a patented gel made in the USA assuring its quality and safety.

Gel candles will burn 2-3 times longer than traditional wax candles. When we say "Heavenly Scented," we mean they are wonderful and strong, but not overpowering like the cheaper wax candles which are not that great for you to breathe in. Gel candles have a smaller flame than wax candles, but our Gel candles "glow" when they burn. Gel candles tend to smoke less than wax candles. Wax candles must have the wicks trimmed each time prior to burning where Gel candles will regulate the wick so you don't have to.

LifeSource Candles are unique, seeing them glow when they burn is amazing. You and your family, friends and co-workers will just love them, guaranteed. They make great gifts!
